

## Learning Disability Partnership Board

### Subgroup Highlight Report

<b>Subgroup:</b>	Having a Place to Live
<b>Author:</b>	Sam Sinderberry / Adam Jones
<b>Date:</b>	11/01/2022
<b>Reporting Period:</b>	November 2022 – January 2023

#### What's gone well since last report?

- Sam has been out to re-visit some supported living services alongside members of the Pathway Planning Team and has been asking people how they have liked living there. He has written a report about his findings so far.
  - Verity Almond has started in the housing project officer role and will be based in the Pathway planning team. Her priorities to start with will be managing voids, supporting social workers with finding placements and tendering for some new shared supported living services.
  - Several new shared supported living services have been tendered and are due to be ready in early 2023.
  - Work continues on the new supported living contract and specification, we hope to be able to share this with our having a place to live group at the next meeting.

### **What will we have looked at by next report?**

- By the next report Sam will have visited more cluster flats and will have some more feedback.
- A draft specification for the supported living contract

### **Problems and Risks**

**(Actual or potential problems and risks to be considered before the next reporting period)**

- The risks around provider recruitment continues, this is mainly due to the struggles in staff pay compared other sectors. This could lead to some providers not being able to continue to support people.
- Some risk in potential new developments due to recent government financial policy and how this has effected the money markets.

### **Any Other reports attached to highlight report**

-
