Evidence shows that any young person who experiences 4 or more careers related engagement activities with employers during their journey through education are 86% less likely to be unemployed.

Experiencing these 4 employer engagement activities gives a young person the potential to earn up to 18% more in their career.

However, at the moment, young people in Worcestershire are only receiving these types of encounters in 40% of schools and we need your help to change this.

Help us to reshape Worcestershire’s careers and enterprise landscape and prepare and inspire your future workforce

Could you or your organisation help by supporting Worcestershire’s schools to facilitate careers related activities? Why not support the delivery of the following activities?

- Conduct Mock Interviews
- Deliver an Industry Workshop
- Develop a young person’s Employability Skills
- Support Young Enterprise activities
- Exhibit at Worcestershire Skills Show
- Exhibit at a School Careers Fairs
- Support young people to understand apprenticeships
- Open your doors to young people - Workplace Visits
- Conduct Industry Days
- Deliver an Assembly
- Hold a Careers Talk
- Become an Enterprise Adviser

Volunteer and help make a difference to Worcestershire’s young people

Work closely with a local school or college to support the development of activities that will help young people to experience the world of work and puts opportunities with local employers at the heart of their education.

Why this is right for you

Supporting careers and enterprise activity is incredibly rewarding. Use your expertise to pass on vital knowledge about your industry to our young people and help improve their career prospects.

- Address skills gaps in the local and national job market
- Deepen your connection to the local community
- Build your company’s reputation
- Improve your organisation’s CSR profile
- Influence the delivery of careers activity in schools
- Identify your future workforce

Help our next generation to become Worcestershire’s future workforce
