

# VALE OF EVESHAM ADVISORY LORRY ROUTE MAP

## Vale of Evesham Advisory Lorry Route Map

The map illustrates the best available routes for heavy goods vehicles in the Vale of Evesham. The map indicates industrial and trading estates within the Vale with their points of local access.

**Good practice**  
Lorry Operators, by encouraging drivers to use the routes indicated, could avoid environmentally sensitive areas and the conflict with local residents

**Know your Vehicle height and width!**  
The map shows bridges on the lorry route network where the safe clearance is restricted partially or wholly to be 16'3" (4.95 metres).

If your height is greater than 16'3" (4.95 metres) and if you cannot lower your load you must check out your route with the relevant highway authorities. Contact:
