Method

1. Weigh the ingredients on a set of scales

You can use any fruit juice plus small pieces of fruit as well if you like.

2. Write out the individual ingredients and weights in the table. Don't forget to include water in the list if you use it.

3. Number the ingredients. The heaviest is 1, next heaviest 2 down to the lightest.

4. Make out the ingredients list in the correct format. Use the table to help. Put number 1 first, number 2 second etc

5. Pour mix into a lolly mould and freeze.

6. Lick and enjoy!
