Shout About School Libraries and Schools Library Services

From October 2011 to late 2012 CILIP is running a joint campaign with the Association of Senior Children's and Education Librarians (ASCEL), and the School Library Association (SLA). We want everyone to start SHOUTING ABOUT School Libraries and Schools Library Services.

CILIP is campaigning for school libraries and school library services as we believe they make an important contribution to society. We all benefit if the next generation is well educated, highly literate and have the necessary understanding and information literacy skills to navigate our increasingly digital world.
