Ordination Papers

Worcestershire Record Office holds a series of ordination papers, for which we now have available an alphabetical index showing for whom we hold papers. These indexes cover the years 1837 to 1912 and 1913-1960 (with gaps)

An ordination is the process by which an individual is consecrated. This means that they are set apart as a member of the clergy to perform various religious rites and ceremonies. Ordination papers are the testimonials and other documents which would have been presented to the Bishop of Worcester in support of a candidate seeking ordination.

The full set of documents required to be sent by a candidate in support of their ordination were:

- A testimonial from 3 or more clergymen who had known the candidate personally for some time.
- A certificate showing the date of birth or baptism of the candidate.
- A certificate of education or proof that the candidate has passed any relevant examinations.
- A document known as a 'si quis', which certified that, the candidate's intention to seek ordination had been announced in his parish church and that no objection had been raised.
- A firm promise of an ecclesiastical appointment, known as a 'title'.

A full set of papers will not have survived in all cases and indeed many of the ordination papers that we hold are letters testimonial. These documents are a hugely valuable resource to researchers and can provide a wealth of information.

If you would like to view the original documents for any of the entries in either index, please make a note of the information given in the last four columns of the spreadsheet (Reference Number, BA number, parcel number and item number).
