# HOW TO USE THIS HANDLIST

1. Find out which Hundred the parish in which you are interested is situated. All parishes and their hundreds are listed, together with dates of the surviving documents in the land tax place name index on the searchroom shelves.
2. Check the years you require are available using the same volume as in (1) above. There is no complete coverage of Land Tax Assessments and there are quite a few gaps.

Note down any reference number written against each of the years in which you are interested. If there is no reference number we do not have a return for that year.

3. Once you have located the years and hundred you require, locate the film number(s) you need using section 1 of this handlist.

For example - if you require land tax assessments for Belbroughton for the year 1792 you will find in the land tax placenames index that Belbroughton is in the hundred of Lower Halfshire. For the year 1792 the ref 152 BA 826/6 is given. If

**you check section 2 of this handlist you will find that 1792 ref 152 BA 826/6 Lower Halfshire Hundred is on film no. 5.**

- 4. The second section of the handlist contains the information given in section 1 rearranged by hundred.**
