## RECOMMENDED WEBSITE CONTENT

Local alumni & postgraduates are being invited to pledge their support for the Inspiring Worcestershire campaign to help current students across the county.

The Worcestershire Careers Hub team are looking for former students and alumni of Worcestershire schools to pledge their support as part of a new programme to improve careers support in schools.

The new programme aims to have students from local schools gain advice from former students to hear first-hand about their experiences in the world of work. This involvement will benefit local schools and improves the careers guidance on offer.

Alumni and post graduates can have a key role in inspiring other young people through sharing their own journey and knowledge. This vital experience can help students to inform the decisions they may make regarding their career utilising the pathway and sector knowledge shared with them.

Those who sign up will be able to work with their local school, and if willing, support other schools within the careers hub. This builds up the variety and quantity of engagements young people have with employers whilst at school, which provides students with crucial information and increases their knowledge about the world of work.

There are numerous ways to pledge support, this can range from small to large commitments, all of which can make a vital difference to a local school.

Some example ways to get involved are listed below:

- > Mock Interview Days
- > Assembly Talks
- > Workplace visits
- > Work Experience Opportunities
- > Careers Fairs
- > Support of Curriculum Activities

Postgraduates and former students who are interested in taking part are also encouraged to recommend the programme to friends or colleagues to help build a network of alumni supporters for all of Worcestershire's schools.

To pledge your support, please contact the Worcestershire Careers Hub team by emailing [cec@worcestershire.gov.uk](mailto:cec@worcestershire.gov.uk)
