CAREERS LEADER INTRODUCTION

Careers Leaders are responsible and accountable for the delivery of their school's programme of careers advice and guidance. It is a senior role that requires the person doing it to have a clear overview of the school's careers provision and to make sure that the school meets the Gatsby Benchmarks.

Careers leadership involves planning, implementing and quality assuring a careers programme for the school; managing the delivery of career guidance; networking with external partners, including employers; coordinating the contributions of careers teachers, subject teachers, tutors and SENCOs.

The Careers Leader should be someone who can liaise with external partners, such as employers, learning providers and career guidance services, as well as ensure that the various elements of the school's careers provision are coordinated and managed through a stable and embedded programme.

They are also responsible for ensuring that the careers programme continuously improves and that it delivers the kinds of impact that are needed for young people. This means paying careful attention to feedback from all stakeholders and to the destinations of students.

Our hope is that the information contained

within this document will provide our careers leaders with a comprehensive guide to the activity support on offer from partners across Worcestershire, who to contact and details of any formal booking processes which must be followed which in turn will make the organisation of these activities a little less time consuming.

The activities offered are varied and include assemblies, workshops, taster days, open events and much more. Arranging for these activities to take place within your educational setting will help you in part work towards the achievement of the Gatsby Benchmarks.

Due to events which have taken place over the last year many of our partner organisations have adapted their delivery approach to allow for delivery to take place across virtual settings and have been listed on the relevant pages within this guide.

As always the Inspiring Worcestershire Careers Hub delivery team will be on hand to provide you with any further support you may require to further develop your careers programmes and ensure that you are made aware of any of the NEW resources which are also being produced to support the delivery of careers education across Worcestershire.
