RESOURCES FOR TEACHERS

To support teachers to continue educating young people while they are at home, STEM Learning has developed a range of materials, including free resources, tips from their subject experts and professional development opportunities. This can be found at [Home Teaching and Professional Development for Teachers](#)

STUDENTS

I'M A SCIENTIST AND I'M AN ENGINEER, STAY AT HOME

I'm a Scientist and I'm an Engineer, Stay at home help keep students engaged with STEM, even when schools are closed. Keep your class connected with STEM and each other! They're online. They're interactive. Your whole class can join in. They help students find new perspectives and new careers. They support the Science Capital Teaching Approach. Taking part increases students' Science Capital.

Students can have live CHATS with STEM ambassadors where they can ask questions about anything they like. Everything happens online. All that's needed is an internet connection. This can be found at [StayatHome](#)
