

# Care Leaver Daniel Peck's Round The World Trip

Daniel is currently exploring the World in an adventure of a lifetime.

Daniel left the UK way back in November 2017, spending 12 months travelling around the whole of Australia. Dan was able to find work to fund each part of the trip. He left Australia in November 2018 and spent time in Chile, Peru and Mexico where he visited some of the most breath taking places on earth looking at ancient civilisations.

## GOING AROUND THE WORLD AND BACK

### THE JOURNEY

In late December 2018 he made his way to Canada where he is currently working in a coffee bar saving up for his next adventure which he aims to be Cuba followed by the Philippines.

This incredible adventure has been organised and funded by Daniel himself. Daniel is sending regular photo's back to make us all really envious but he is very keen to get the message across that anyone can be adventurous, encouraging fellow care leavers to get exploring, to experience travel by bus, train or plane. Just get out and about and go a little further each time and go somewhere new. Dan explains that even though he has seen different cultures we are all human and there is so much that we share and have in common that even when he didn't understand the language he was able to communicate and have a good time.

Photos used by kind permission of Daniel.
