Hi Steven

Thank you for the comments attached for information.

We would have no issue with any route upgrades proposed being installed as soon as practicable. It should be noted however to upgrade these routes will require the landowners to sign up to a legal agreement which will need to be in place to allow the footpath to be upgraded to a bridleway. This may take some time and therefore application to the public rights of team for upgrades or dedications of new routes is recommended as soon as possible if planning permission is granted.

Kind Regards

Rowena
