Application Ref: 19/000053/CM **Grid Ref:** (E) 383959, (N) 278992
Applicant: NRS Aggregates Ltd
Proposal: Proposed sand and gravel quarry with progressive restoration using site derived and imported inert material to agricultural parkland, public access and nature enhancement
Location: Land at Lea Castle Farm, Wolverley Road, Broadwaters, Kidderminster, Worcestershire

On 10 January 2020 NRS Aggregates Ltd applied to Worcestershire County Council for planning permission for the above proposal. You will recall I consulted you on the above application for planning permission in February 2020.

Following the consideration of the comments that were received on the application and Environmental Statement, the County Council wrote to the applicant in June 2020 requesting further information in respect of the Environmental Statement. On 27 October 2020 the applicant submitted the requested

further information, and the County Council are now seeking comments on this further information in relation to a number of matters including: water environment, ecology and biodiversity, landscape, agricultural land classification and soils, cultural heritage, transport movement and access, rights of way, and restoration and aftercare.

The applicant is seeking planning permission to extract approximately 3 million tonnes of sand and gravel over a total of 6 phases. The land would be progressively restored using site derived and imported inert material to agricultural parkland, public access and nature enhancement. The applicant estimates the development would take approximately 11 years to complete.
