

Initial Works
Operations to include:

- Re-establishment of tree avenue planting along Brdleyway FP 62 5(B) and FP 62 6(B)
- Woodland block W1 to be planted with hedgerows H1, H2 and H3 to be strengthened.
- Temporary removal of a section of wall adjacent to Wolverley Road / the proposed site access - bricks to be stored for re-use in re-building the wall on completion of scheme.
- Soil stripping along the route of the proposed internal access track and the plant site area. Stripped soils to be temporarily stored within Bunds 1 to 5 to be later utilised for progressive restoration. Bunds to be seeded with floristic meadow mix and maintained.
- Storage area 6 topsoil to be placed onto existing adjacent undisturbed field to an ~ thickness of 300mm and farmed.
- Exposed mineral within the southern area of the plant site is to be dug and removed "as dug" from the site. The temporary plant site will then be constructed a minimum of 7m below existing ground levels and further screened by a seeded soil bund. The proposed site internal access road will be graded down from the east to the lower plant site level.
- Silt management / water cleansing system established.
- New section of Public Right of Way to be established from point A off PROW ref: 62 5(B) to B connecting with PROW ref: 62 2(B). ~ length of new PROW 2.0km. Site internal (off road) new path with dedicated crossing over the Site access road. The new access will be suitable for walkers, cycling and as a bridleway.
- Sand and gravel will be extracted from the remainder of the Initial Works area, processed and sold off site.
