

Final Works
Operations to include:

- The plant site will be decommissioned and removed from site along with all other quarry / ancillary equipment.
- The plant site void itself will be restored utilising both imported inert materials, and all remaining temporary soil storage bunds will be removed to achieve the full and complete restoration.
- The vehicle access to the Site will be removed and the section of wall which was temporarily taken down will be re-built on its original location. Restored land will be seeded and/or planted in accordance with the Concept Restoration Scheme.
- All restored land will be placed in to aftercare and managed along with previously restored land.
- Additional section of new Public Right of Way along the eastern boundary of Phase 4.
