Dear Mr Aldridge,

**Re: WORCESTERSHIRE MINERALS LOCAL PLAN: MAIN MODIFICATIONS CONSULTATION**

Thank you for sending us the additional further information for the local planning application 19/000053/CM. As Public Health England (PHE) are not a statutory consultee, we would not normally comment on this type of planning application unless there are concerns regarding specific chemical & environmental hazard which have the potential to impact on the health of local communities. Impacts on public health from local air quality, noise and contaminated land fall under the remit of the local authority and it is their responsibility to decide whether or not to comment on these aspects of the planning application.

If the local authority has any specific queries relating to potential impacts on public health from chemical & environmental hazard exposures, then they are welcome to contact us for advice.

Yours sincerely

Dr Morgane Cabaret-Loux  
Environmental Public Health Scientist
