

What can I do?

- Keep clothing on hangers tidy and in size order
- Folded items need to be uniform, with the closed edge towards the customer and a size label showing if possible

- Supermarket shelves must have the products pulled forward, labels facing forward and in the correct section.
- Group the same type of products together

- Ensure all products have a label on them or on the shelf
- Clothing and larger items may have a tag for the label to go on, ensure this is there and tucked in neatly
