

Packing Tips

1 Make sure the bag is big enough and strong enough for the products, otherwise it will break.

2 Wrap any breakable things with bubble wrap or tissue paper to ensure they don't break.

3 Fold any clothing neatly into a pile then add it to the bag, allowing all the items to stay neat.

4 Ask if the customer would like the receipt in the bag or in their hand. Pass this to them with the bag.

5 Separate large amounts of shopping across many bags, keeping the same type of products together.
