Ask for: Nicholas Dean

Dear Sir or Madam

**Worcestershire Waste Core Strategy: Emerging Preferred Options
Consultation**

The Council is preparing a Waste Core Strategy. This is a document that will set out how we plan for waste management facilities in Worcestershire until 2027. The final version will guide developers as to what kind of waste management facilities will be acceptable where and be used by the Council to make decisions about planning applications for waste management facilities.

I have enclosed an information sheet with this letter to give you a taste of some of the issues but a summary, the full Emerging Preferred Options Report and a set of background papers can be seen and printed from our website www.worcestershire.gov.uk/wcs. Copies of the full report can also be seen at the County Libraries, Council Hubs and at County Hall. To tell us what you think, please read either the summary or the Emerging Preferred Options report and answer the questionnaire afterwards. You can also fill in the questionnaire on our website.

It would be helpful if you could comment by the 4th February 2010, because we will then have plenty of time to consider what you say, but we will try to address any comments at any time before the final document is produced.

Please contact me if you need any further information, additional copies of this summary or the questionnaire or a copy of the full report.

Yours faithfully

Nicholas Dean
