## Warehouse Operative- Phoenix Medical

**Birmingham Full Job Description**

**£9.70 an hour - Permanent**

The hours of work are 40 per week:

Monday - Friday 08:00 - 16:00, Alternate Sundays 07:00 - 12:00

### **About Us:**

PHOENIX Healthcare Distribution is a national full-line pharmaceutical wholesaler with 'Four Nation' coverage in the UK and a network of nationwide Distribution centres. PHOENIX distribution centres are ideally located to best support our customers' daily requirements and our local teams are supported by centralised corporate functions at our Head Office in Runcorn, Cheshire. We pride ourselves on delivering a high-quality supply chain service across our business. All distribution centers are MHRA accredited and comply with ISO Quality and Environmental standards. PHOENIX has continued to expand its business by providing outstanding UK wide distribution as well as developing innovative and forward-thinking services to manufacturer partners, customers and patients. Our overarching strategy of 'delivering health' has enabled us to influence key segments of the healthcare system across primary and secondary care which includes pharmacy, GPs, hospitals and niche markets.

### **The Role:**

We are currently looking for a Warehouse Operative within our {Group Location} Distribution Centre.

Working within a busy pharmaceutical warehouse environment you will be accurately assembling customer orders, efficiently picking customer orders for shipment and ensuring that the correct number and type of product is loaded and shipped on time. You will need to meet minimum productivity and quality standards and comply with policies and legal requirements in relation to the role.

### **Requirements**

Numeracy and literacy skills

- Attention to detail
- Team Player
- Communication Skills
- Ability to prioritise own workload

If you have previous experience of working in a warehouse environment this will be helpful but not essential for success as training is provided.
