We focus on opportunities to enhance and develop skills, including life skills, leisure and learning with a focus on enabling the individual to be as independent as possible, but with the right support at the right time. Many of the people we support require more specialist support – such as intensive interaction and we focus on the outcomes that are important to them and set goals that may be longer term in nature, specifically around maintaining good health and well-being. We feel that building strong community connections is key to ensuring the people we support to enable them to feel included as a valuable member of the community. To support this, we offer a range of activities which may include engaging with partners that offer specialist expertise – such as music, sports, drama and other activities. Each customer has a clear care plan and we provide support on a 1:1 basis where appropriate (and where assessed) and on a larger ratio where appropriate. Our services also offer appropriate changing facilities for people that need intimate personal care and includes hoists. Much of the support is intensive interaction and we have the facility and space to expand our number of service users and this support would suit the development of the specialist support that focuses on enablement with a focus on outcomes and achievement of skills to promote independence.</p>	https://www.heartofenglandmencap.org.uk/	Malvern	9.30am-3.30pm
