What is an A Level?

A Level are sometimes called *General Certificates of Education* or *Advanced levels* and are normally studied after *GCSEs*.
AS levels generally take one year to complete, and A levels are studied across two years. A levels are subject- based qualifications that can lead to university, further study, training, or work. All A levels have points called *UCAS points* attached to them.

What to consider:

- > What subjects do you enjoy? If you enjoy a subject or have an ability in it already, you are more likely to do well.
- > Are there any particular subjects and/or grades you may need?
