

WHAT IS...

SIXTH FORM

What is Sixth Form?

A sixth form is where you can study A Levels and sometimes vocational qualifications in Year 12 and Year 13.

There are two different types of Sixth Forms available, an independent Sixth Form college or a Sixth Form attached to a school.

What to expect: Sixth Form College

- Wider choice of subjects
- Open to the whole community, not just 16-19 year olds
- Similar learning environment to university

What to expect: School Sixth Form

- Attached to a school
- Familiar teachers and teaching staff
- For students aged 16-19 years old

Which would you prefer?

You can use the box below to help you to decide whether you would prefer a School Sixth Form or a Sixth Form College?

It is important to think about what would be best for your learning.
