Positive Behaviour Support Plan
Assessing the situation:
Who is this child/young person? What are their interests, positive qualities, strengths? How do they best communicate?
What are the behaviours causing concern that we want to reduce? Be specific - when, how often, what data do you have?
· · · · · · · · · · · · · · · · · · ·
Why? What do we think the C/YP is trying to communicate with these behaviours? What would they say if they were able to communicate this verbally? What might be the function of this behaviour, is it about things or activities, attention, sensory needs, needing to
escape something?
What is working well?
What should we avoid doing?

School:

Plan - how we are going to help further:

Name:

To ensure that overall, despite these difficulties, the child/young person finds school a rewarding experience, we will:		
To holy the shild/veryes person not their peeds west in a constructive way.		
To help the child/young person get their needs met in a constructive way, we will teach replacement behaviours – what and how?		
To make the replacement behaviour more likely and to reduce the problem		
behaviour, we will make the following environmental changes: Consider wider factors such as - times of the day, predictability, choice/control, peers, adults, rules and rewards, class layout and resources, noise/crowding/light.
