

Dear Sir or Madam

I am writing to object against plans for the Lea Castle Quarry.

Not only will the quarry will cause harm to the environment, local community, and residents. it will also impact the quality of life for residents, and will further destroy local habitats.

We do not have the infrastructure to facilitate the hundreds of new builds let alone a quarry on top of that. The amount of traffic would be dangerous and potentially fatal for which Worcestershire County Council would be responsible for.

Sincerely,

Sallyanne Skidmore
