

Hi,

I would like to register my objection to the proposed quarry at Lea castle.

I have lived in Bewdley and commuted to Stourbridge for over 40 years. In that time the traffic particularly through Wolverley has increased dramatically, almost doubling the time to commute.

My Father also regularly traveled the same route until he was nearly killed by a lorry driver going over the Wolverley traffic lights on the A449 on red.

Any further traffic, light or commercial, would put further pressure on an already inadequate, dangerous road system.

I also have family and friends children at Heathfield School who are so concerned about additional heavy traffic in the area and poor air quality they will be looking to move away to another School.

Apart from traffic and air quality the devastation a quarry would bring to this rural area would be beyond comprehension.

From the above you will see that I am very keen to see the planning permission for the Lea Castle Quarry be overturned. Not only for the health and safety of local residents, children from all of the local Schools, regular commuters and the tourists who come to spend money in the area.

Regards
Nick Turner
