

I am a resident of the weavers chase estate and I wish to formally record my objection for the proposed quarry.

I am massively concerned on the impact this will have on my daughter, she currently attends the heathfield knoll school, so much so I would consider moving schools as I don't want her being around the dust of the quarry and not only that the significant impact this will have on the infrastructure which can just about handle the day to day traffic at the moment.

This is a nice quiet peaceful community and when I purchased my house I was not aware of this otherwise I would never consider living near such thing. It's going to make such an impact to the beautiful countryside landscape which is why I chose to live here.

I strongly object.

Regards
