Overview

Worcestershire Virtual School is dedicated to ensuring that all education settings within Worcestershire are Trauma Informed and Attachment Aware Settings (TIAAS). TIAAS improves academic outcomes, attendance, and wellbeing.

We recognise that the TIAAS path takes time, is rightly tailored to each setting and that different settings are at different stages in their journey. In recognition of this, Worcestershire Virtual School have expanded our TIAAS training menu to offer something suitable for everyone.

This menu consists not only of TIAAS training but also support with implementation and support for accreditation through the Attachment Research Community. You will also be supported as part of a growing TIAAS network in Worcestershire and beyond.

All of the training outlined below is fully funded by Worcestershire Virtual School and so is completely free to you!

Previous delegate feedback

“The TIS approach has prevented us excluding several of our children, it has given us a way of supporting and understanding them.”

“Changes in staff to child relationships has led to a positive culture and atmosphere. School is a lovely place to be for everyone.”

“The training has really cemented what we are doing as a school and increased my own personal toolkit.”

“Every teacher in our school has now been PACE trained and this has had a huge impact across the whole school, we had a pupil doing 1 hour a day and they are now attending school full time.”

Introduction to the TIAAS Pathway

If you are interested in understanding more about the TiAAS (Trauma Informed Attachment Aware settings) within Worcestershire, then watch our [Introduction to TIAAS Pathway available on Worcestershire Children First \(youtube.com\)](#)

Led by Worcestershire Virtual School and WCF: Educational Psychology Team the webcast will explore how the ARC pathway can support schools and settings to gain formal, national recognition of your practice from Bronze, Silver, Gold through to Hub centre of excellence.

Ensuring anyone who watches will come away knowing:

- What does TiAAS mean to my setting?
- What is expected from me?
- What support can I get?

Watch free via our YouTube channel - [Introduction to TIAAS Pathway available on Worcestershire Children First \(youtube.com\)](#)

TIAAS Network Meeting

An opportunity to come together, share what's working well and co-construct the Worcestershire TIAAS (Trauma Informed Attachment Aware settings) Pathway.

Open to all schools / settings regardless of whether they attended the Introduction to Worcestershire TIAAS Pathway or not.

Cost: Free and a maximum of two delegates per school / setting

Level 1 training

How do we engage families through trauma informed practices? *NEW*

In this interactive online training, we will explore meaningful family engagement through the lens of trauma-informed practices. Participants will learn how to effectively engage families and foster investment in their child's success using a trauma-sensitive approach. The session will also include exploration of frameworks created to provide a trauma-informed approach, practical real-world strategies to support and discussions around our own biases as practitioners. A blend of taught content, discussions and collaborative breakout groups will be used to equip educators with the tools needed to support families.

- 10 June 2025, 3.30pm to 5pm, virtual delivery, course code: 10522/ 90645

Language Matters and Words have power - from a trauma perspective *NEW*

Transforming Lives, One Word at a Time: Trauma-Informed Language for Practitioners Working with Children and Young People

"Language Matters and Words Have Power, from a Trauma Perspective," presented by the Educational Psychology Service.

How we speak about young people and their lives and experiences matters. In this insightful online program, you'll delve deep into the psychology of language and its formative role in shaping children and young people's realities.

This is an opportunity to think about how you communicate with children and about the young lives you impact daily; a chance to equip yourself with the tools to inspire resilience, healing, and post-traumatic growth through the power of conscientious language.

Adverse Childhood Experiences: Early Trauma Online Learning

- Cost Free
- Access directly via the [ACEs \(acesonlinelearning.com\) website \(opens in new window\)](https://acesonlinelearning.com)

Emotion Coaching and Pace: webcast

This webcast delivered by our Education Psychology team will allow participants to consider how to use emotion coaching and PACE in their settings.

PACE stands for Playfulness, Acceptance, Curiosity and Empathy; which is a flexible approach developed by Dan Hughes to help adults to form safe, trusting and meaningful relationships with young people who have experienced trauma.

The course is aimed at anyone who lives, works or cares for young people, as the application of both emotion coaching and PACE are applicable across the age range and across settings. The training is an introduction to these principles, and an opportunity to practice these skills, as well as share practice. It will allow time to share good practice with other participants, and practice the approaches shared.

Cost: Free as this is part of Level 1 of the Virtual School TIAAS training programme
Schools / settings can either book per person or the main lead and then share links accordingly.

To find the course on CPD search “course code 10489”

Certification: Confirmation of watching the webcast will be updated at the end of each half term to provide data to Virtual School

The Neuroscience that underpins Adverse Childhood Experiences (ACE's): webcast

This engaging webcast course aims to equip professionals with an understanding of what is meant by adverse childhood experiences (ACEs) and how they can affect a child or young person. We will look at what is going on in the brain when children have experienced toxic stress and we will consider how this can affect ongoing development and challenges associated with a school/learning environment.

The session is interactive and practical, offering opportunities to consider how we can adapt our practice to support those who have experienced ACE's, based on evidence and case studies about what has been shown to work as part of a Trauma Informed and Attachment Aware approach.

Cost: Free as this is part of Level 1 of the Virtual School TIAAS training programme
Schools / settings can either book per person or the main lead and then share links accordingly.

Certification: Confirmation of watching the webcast will be updated at the end of each half term to provide data to Virtual School

Level 3 training

Trauma Informed Schools UK: Senior Leads Training

This course is designed to support Senior Leads to implement trauma-informed and mentally healthy practices into their schools and organisations. TISUK recognises the importance of the commitment and determination of Senior Leads to fully embed any approach or cultural change. The course will ensure that Senior Leads have the knowledge, skills and understanding to optimise the well-being of both adults and pupils in their school and drive this crucial cultural change.

Delegates will gain a wealth of effective, time and money-saving ways of working with a child's challenging behaviour and the mental health issues that block learning. This course provides a comprehensive overview of the 10- day course Diploma in Trauma and Mental Health Informed Schools and Communities (Practitioner Status) enabling Senior Leads to fully support the TMHi practitioners they send on the Diploma course, many of whom could then become the school's Mental Health Lead.

The course aims to positively impact on pupils, staff and the whole school community, moving towards developing a mentally healthy culture for all. The highly innovative relational, regulatory and reflective skills are backed by over 1000 evidence-based studies in neuroscience and psychology. Each course is informed by the work of senior psychologists and educators.

- Cohort 12: 04 and 05 November 2025
- Cohort 13: 09 and 10 March 2026
- Delivered by Jill Mahon TIS UK

Trauma Informed Schools UK- Diploma (Level 5) in Trauma and Mental Health

Professor Tamsin Ford (University of Exeter Medical School) states that “schools are a front-line service in relation to mental health” (2018). In light of this, our practical skills-based training course underpinned by over 1000 evidence-based psychological, medical and neuroscientific research studies, is designed to inform and empower school staff to respond effectively to vulnerable children and those who have suffered a trauma or have a mental health issue. Without such interventions, painful life experiences are likely to present in challenging behaviour and/or blocks to learning.

The training provides delegates with key insights into the psychology and neuroscience of mental ill-health and challenging behaviour alongside vital tools and techniques in knowing how to respond to a child’s narrative of painful life events. So often this is enough to prevent years of suffering and the medicalising of their distress with psychiatric labels and medication. Delegates will also be trained to know when to seek the support of psychologist-led supervision and when, due to limits of competence, to refer on. The course not only focuses on work with individual children but also on changing whole school cultures to be mentally healthy for all. The curriculum covers interventions designed specifically to address teacher stress, teacher absence and poor staff retention.

If you want to change troubled children’s lives, reduce exclusions, improve pupil attendance and staff retention, while positively impacting on the mental health of the school
